

ESSENTIAL: COMMON SENSE

Tips on how to be a good visitor, not a tourist.

Take care of the cultural and natural heritage of the destination you are visiting.

Don't dirty or litter.

Respect signs and codes.

Observe (instead of climbing up on monuments).

Don't throw cigarette butts on the ground and refrain from smoking in non-smoking zones.

Enjoy. Complaining will only ruin your trip.

Enjoy the local cuisine. Open your mind and palate.

Be kind and respectful towards the local community.

Smile. Wherever and whenever. It's the universal language that allow things to flow.

Refrain from shouting.

CIVIC YURBBANISM

Be committed to social problems. Don't look the other way and contact local authorities.

Be patient, the unexpected is something you can't control.

Oftentimes the best anecdotes occur in the most surprising of places.
